

FLC-BTM201

概述：

FLC-BTM201是一款蓝牙低功耗模组（BLE only），自带G.722 Audio Codec。这款模组的功耗极低，能使客户的产品轻松拥有无线通讯功能。模组内含RF、基带、MCU、系统时钟，内置天线和行进的蓝牙4.2协议栈以及不同客户的应用设置。BTM201可以

Description:

FLC-BTM201 is a Bluetooth low energy module with G.722 Audio Codec. Supporting BT4.2 (BLE only). This module enables customers to add ultra-low power wireless connectivity to their products. The module provides everything required to create a Bluetooth low

- Ultra-low power
- G.722 Audio Codec
- Bluetooth 4.2 (BLE only)
- RF, Baseband, MCU, System clock
- On-chip antenna and BT4.2 protocol stack
- Application specific settings

Features

- Ultra-low power consumption
- G.722 Audio Codec
- Bluetooth 4.2 (BLE only)
- RF, Baseband, MCU, System clock
- On-chip antenna and BT4.2 protocol stack
- Application specific settings

Pin Config

- VCC
- GND
- TX
- RX
- BT4.2 protocol stack
- Application specific settings

- Ultra-low power
- G.722 Audio Codec
- Bluetooth 4.2 (BLE only)
- RF, Baseband, MCU, System clock
- On-chip antenna and BT4.2 protocol stack
- Application specific settings
